4-6 Step forward Right, make 1/2 pivot turn left onto Left, step forward Right

***Note that for the first two walls only 42 counts of the pattern are danced.**

Another waltz to another 'George' song - can't help it, he's still my favourite 20 years after first dancing to his music. I think this one is pretty easy with possibly the only 'tricky' section the turn on 34-36 which can always be made easy by taking out the turns and stepping side R, cross L, side R.
